

Davis Renov Stahler

Yeshiva High School for Boys

The Right Decision. Here's why:

1. Torah Studies, Torah Environment: Our Yeshiva is a *makom Torah*, a warm, positive environment that inspires a love of learning. Our dynamic, caring *Rabbeim* help our *talmidim* develop textual and analytical skills, while gaining an understanding of the material. Careful personal attention is given to each student to reach his potential.

Woodmere Campus

2. Excellence in General Studies: We have the teachers, facilities and programs to prepare students for the colleges of their choice. Our program includes a wide range of A.P. courses. Fully equipped laboratories, a modern gym facility, and a state-of-the-art computer room create an atmosphere where students thrive. We have developed a new innovative computer curriculum that will

reshape the future of academic excellence.

3. Eretz Yisrael, Am Yisrael: We consider love of the State of Israel, and love and respect of every single Jew essentials of each *talmid's hashkafa*.

4. Life Beyond the classroom: *Shabbatonim*, trips, publications, *Melave*

Malkas. These experiences inject a *ruach* and excitement that spills over into the classroom. Freshman Retreat, chess programs, Mission to Washington, all sports teams, debate and clubs are programs aimed at developing friendships, teamwork and leadership. *Rosh Chodesh* Assemblies, *chagigot*, Father-Son Learning, *Torah* personalities, there's much more to education than tests and homework.
